### Tasks of EFG's Linked Third Parties in UNEXMIN

WP number	WP title, start date	EFG/TPs tasks
WP5	Stakeholder mobilisation  M1	<p><b>Task 5.4 Inventory of flooded mines (Month 1-24)</b></p> <p>An on-line, public access inventory will be created on potential target mines in Europe. Primary focus will be on mines that cannot be surveyed by any other means due to complex typology or a depth that is below 50 m. Metallic minerals will be of primary importance. This work will start with defining a selection criteria and a typology for classification of mines of interest for the project. Afterwards existing databases will be reviewed by the project partners, starting with PROMINE and Minerals4EU in order to check the level and reliability of data. Missing data will then be collected from mining authorities by the <i>EFG Third Parties</i> in the countries in which they are present. Templates for data collection will be provided by EFG.</p>
WP8	Dissemination, technology transfer and exploitation  M1	<p><b>WP 7.2 Dissemination support services (Month 1-48)</b></p> <p>The <i>EFG Third Parties</i> will disseminate the results of the UNEXMIN project at national level in web portals, newsletters, conferences, workshops, educational activities, exhibitions or any other relevant means. Dissemination materials will be provided by EFG.</p>
