28 September 2019

Dear President and CNG representatives,

As from the MoU agreement signed in August 2018 in Chengdu, with this message I formally invite you on behalf of Chinese partners to organize a mission at China Aesean Mining Forum 2019 in Nanning, China, November 2019.

This mission, in line with planned activities, will be chance to reinforce relationship Italy-China creating opportunities of working collaboration for our professional and productive communities.

We invite you specifically to organize a CNG mission involving selected representatives of your professional geological community and companies.

We will work to create opportunities of collaboration among selected representatives of your Country and our Country.

We suggest professionals and Companies/Organizations are preferably selected with certain suggested professional criteria (see enclosed files).

Although we welcome all your Community of CNG members, we will select participants from profiles received in order to maximize collaboration opportunities. If members of your Community, for which in our feedback we do not foresee specific opportunities, desire anyway to join of course they are very welcome to take part to the Forum organizing their activities and participation.

On this occasion, based in theme of Forum, we need to focus on extractive sector and related discipline of environment, survey , exploration. In future we will be able to enlarge the number of disciplinary sectors involved. Find enclose:

- invitation from LOC of the Forum addressed to CNG to participate in the China-ASEAN Forum on Mining Collaboration.
- Proposed registration form for Italy professionals and companies
- Proposed preferential criteria

哲欧科技有限责任公司

I'm sure this activity will help in create concrete interesting professional opportunities for your Community of CNG Members

Best regards,

Mr. Hui Lu
General Manager of GEOTECH

Mr. Meng WANG
